open a app and active it **On**

and go to adresse in your browser ipkplus:8080 exemple 192.168.1.5:8080

opérations possible

- 1) controlling the sound device
- 2) Control cccam change or view
- 3) Softcam control change or view
- 4) Load the Channel File
- 5) info display on processor and RAM
- 6) Running applications directly on the box

7) Save-backup applications

8) Installing applications directly from the computer on the box

9) restart the application or the suspension of the computer

10) ftp manager
